

2015 Irrigation Season

1. **Eric Sibelius** has been hired this season to be the NEW subdivision **Irrigation Manager**. He will control the distribution of all of the water in the subdivision. His telephone number is **946-6663**. Eric lives in the subdivision at 201 Pioneer Circle. His email is esibelius@hotmail.com
2. Mike Shumway is the ditch walker for the Pioneer Ditch Company. His main job is to deliver the adjudicated water and the 162 acre feet of project water thru the main ditch head gate into the subdivision. He is also responsible for maintaining the main ditch. He is not to be called for your individual problems. Call Eric, your irrigation manager.
3. The Pioneer Ditch Company is requiring that all Water be accurately measured and controlled. Head gates and parshall flumes must be installed prior to the delivery of any irrigation water.
4. Those required improvements are being made to Lateral B, Lateral C and a small lateral serving 4 irrigation users just located below Lateral A now called Lateral A-1. The costs for those improvement will be shared equally among the users of those individual laterals.
5. The Irrigation Committee Is:

Lateral A	-	Randall Tayor	259-8694	dgogirlie@yahoo.com
Lateral A1	-	Eric Sibelius	946-6663	esibelius@hotmail.com
Lateral B	-	Nora Miller	247-0940	noramiller@durangolive.net
Lateral C	-	Rod Humble	247-5615	rodindahumble@yahoo.com
Lateral D (D is for Ditch)	-	Tommy Biessenberger	385-4163	bberger2@hotmail.com
6. Required improvements to the 7 project water users and the 30 remaining adjudicated water users who take their water directly out of the main ditch will be made after this irrigation season.
7. Once the ditch is on CALL, the project water will be allocated on a rotating schedule. That schedule will be distributed to all project water users. The schedule will rotate 3 days on and 3 days off. Tentatively Lateral A, Lateral A1 and Lateral B will receive water for 3 days. Then their head gates will be closed. Lateral C and Lateral D will then have 3 days of use. Repeat. Repeat. Repeat.
8. This rotating schedule together with the improvements made to the laterals, will insure that the irrigation water lasts further into the season.
9. The water should begin running by the first of May. It is anticipated that this year allocation from Lemon Reservoir will be more than last year. However it will not be a normal amount.
10. Your irrigation user fee from the subdivision will be \$ 105 this year, and will be billed shortly.
11. Your allocated cost for the required improvements to your lateral will be billed in May after the work is completed.
12. Eric is your Irrigation Manager. Call him with any problems. 946-6663. Or call your irrigation committee representative.
